Don't Fall Behind. Stay Sharp with our Productivity Packages

"K" Premium Packages

By adding a Digital Readout (DRO) system to your machine, you'll achieve **enhanced precision and efficiency** in your manual machining operations.

Sharp is proud to partner with the top digital readout brands, **ACU-RITE and Newall**. Digital Readout systems work with our mills, lathes, and grinder machines.

Ask your Sharp Representative about upgrading your Sharp machine today with the right DRO solution to your machining application.

Friendly Reminder. Buy NOW for TAX SAVINGS

Take Advantage of Section 179

Section 179 empowers businesses to **deduct the full purchase** price of qualifying equipment as long as it's been delivered and installed by December 31, 2026. Take advantage of these tax savings with our in-stock inventory of machines.

Instead of stretching depreciation across several years, you can claim the entire cost upfront, dramatically improving your cash flow and creating immediate tax benefits.

Consult your tax representative for full details.
