

THE BLAZING GLORY OF PERFORMANCE

MEET THE NEXT GENERATION OF BLAZE

Get the right finish by enhancing your rust removal, cleaning and detailing processes with the next generation Blaze. The BlazeX F970 fiber discs have been developed with carbon steel and other soft-to-grind materials in mind, to provide cool cuts and long life thanks to its non-supersized design. The improved Blaze micro-fracturing grain delivers better cut rate, and longer life when compared to blended ceramic alumina discs. A heavy fiber backing resists tears while providing better face to surface grinding.

KEY INDUSTRIES

MRO | METAL FABRICATION |
WELDING | OIL & GAS |
ENERGY | SHIP BUILDING

KEY APPLICATIONS

STOCK REMOVAL | DEBURRING |
BEVELING | BLENDING |
CLEANING & DETAIL | FINISHING

FEATURES & BENEFITS

- Improved ceramic alumina micro-fracturing grain constantly exposes sharper grain edges to significantly increase cut rate and life over competitive blended/low-ratio ceramic alumina discs
- Heavier fiber backing for additional strength and tear resistance
- Non-supersized design for carbon steel and other soft-to-grind materials
- Best choice for coarse grit fiber disc right angle grinder beveling, blending, deburring, and stock removal applications as BlazeX F970 is over graded

TEST KITS

Still undecided about the capabilities of Blaze X? Order one of these test kits to prove it to yourself.

Kit includes one box of 25, BlazeX F970 (36 grit) fiber discs and one box of 25, Blaze F980 (36 grit) fiber discs.

SIZE	STD. PKG.	PART#
4 -1/2" x 7/8"	1	699573 71200
5" x 7/8"	1	699573 71201
7" x 7/8"	1	699573 71202

Air-Cooled Standard Back-up Pad

Slotted hub design and curved ribs draw heat away from the grinding zone, reducing disc loading and increasing life. All pads have a 5/8"-11 threaded female hub for mounting. We also offer a no-nose pad for shorter-shafted right angle grinders.

Smooth Face Speed-Change Back-up Pad

Molded rubber back-up pads with a smooth face.

- Hard density pads are for aggressive cutting action
- Medium density pads are for all-purpose applications

+ Non-stock. Ask your Norton representative for current order quantities, lead-times, and quotation.

TECH TIP

Use the new next generation Norton BlazeX F970 fiber discs for carbon steel jobs, and Norton Blaze F980 fiber discs are still your preferred choice on stainless steel applications.

BEST – NORTON BlazeX

BETTER – NORTON BlueFire

GOOD – NORTON Metal
