

PRIMARY TOOL

& CUTTER GRINDING INC.

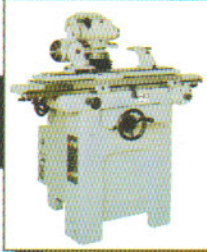

Centrally located in Madison Heights, MI enables us to quickly service customers in both Oakland and Macomb counties. We offer free local pick up and delivery service to allow you, the customer, to concentrate on your business and let us do ours. UPS daily pick ups and deliveries help us serve our customers outside the local area.

We are operating in a 7,200 sq. ft. air conditioned facility which we utilize to its capacity to help keep our overhead low and our prices down. We strongly believe that once you try our high quality products and services, you'll find us to be your Primary choice for all your cutting tool needs.

A brief list of our equipment will display our commitment to quality:

Walter 5 Axis Helitronic Power CNC Grinding Machines, Water 5 Axis Power Production Grinders with Auto Loader, Cincinnati Monoset 7 Axis Tool & Cutter Grinders, Cincinnati #2 Tool & Cutter Grinders, Winslowmatic Drill Point Grinders, Unison Dedtru Centerless Grinders, GMT Centerless Grinders, Harig CNC EZ-Surf Grinders, Toyoda CNC Cylindrical O.D. Grinders, and more enable us to accommodate companies of **all sizes**.

What We Offer

- Our core business is rotary cutting tools. We specialize in end mills, drills and step drills, reamers, step tools, primarily solid carbide, 3mm to 50mm in diameter.
- Familiar with high performance drill points available in the market and can alter and re-sharpen just about any rotary cutting tool, milling cutter, tap, etc.
- Can purchase from a variety of cutting tool suppliers or re-work a tool supplied by the customer. From simply adding a corner radius to full blown specials in carbide, carbide tipped or high speed steel.
- Creative programs customized to our customers needs to help reduce down time and avoid spikes in their tooling costs on long term jobs helping avoid budget conflicts while ensuring the appropriate number of tools required to maintain a proper float.
- Accounts have been set up with Oerlikon Balzers, Ion-Bond, Space Age and other facilities that allow us to re-coat our customers tools saving you time and money.
- CAD drawings available on special tools when ordered. If designed here or if the customer has their own idea, we can take that concept sketch and generate a formal drawing for approval to eliminate mistakes and confusion down the road.

*T*his corporation was established on January 15, 1997 to provide a quality manufacturing and regrinding source of cutting tools at competitive prices. At Primary Tool & Cutter Grinding, Inc. we promise to offer a professional, no frills approach to all of your cutting tool needs, no matter how big or how small. Owned and operated by three partners with over 75 years of combined experience in the cutting tool industry who take pride in what they do and will stand behind their work. We specialize in solid carbide and coolant thru step drills, reamers, form tools, complex contour cutters and complete regrinding and alteration of most industrial cutting tools.
