# DIAMOND DRESSING TOOLS

#### **Diamond Cluster Blade Dressers**

**Diamond Cluster** Blade Dressers are recommended for straight dressing on surface, cylindrical and centerless applications. Available in 15 and zero degree.

Product No.	Angle
RAD-BT3-15	15°
RAD-BT5-15	15°
RAD-BT3-0	0°
RAD-BT5-0	0°

#### **PCD Chisels**

(.005-.062 radius) also available.

#### **PCD/PCBN Tools**

PCD and PCBN Tools for turning, boring, milling, grooving, cut-off and form dressing applications offer the extreme hardness and excellent wear life of diamond or CBN, as well as the toughness of tungsten carbide. These tools afford greatly improved tool life, lower tool cost per part produced, higher cutting speeds, and substantial improvements in productivity. Radiac PCD and PCBN tools are available upon request in a wide variety of standard and special sizes and styles.

#### **Diamond Chisel Point Dressers**

Chisel points are designed for precision forming of radii and contours on many toolroom and cylindrical applications.

Radiac offers a full line of **Diamond Dressers including** Fliesen Tools, Radius Dressers, and Phonopoint Radius Dressers for every application.

Please contact us at 800-223-0457 for full product line availability and engineering assistance.

Illustrated below are four of the most popular radius and form dressing diamond tools used in precision grinding industries today. Following the manufacturer's blueprints, these tools are accurately made and rigorously inspected so that they will produce in grinding wheels intricate forms for which they are designed. Different angles are available upon request.

#### **Pantocrush Dressers**

This tool specifically designed as a Moore Company Pantocrush attachment.

Product No.	Included Angle	Radius
RAD-90M-005	90°	.005
RAD-90M-010	90°	.010
RAD-90M-015	90°	.015
RAD-60M-005	60°	.005
RAD-60M-010	60°	.010
RAD-60M-015	60°	.015
RAD-40M-005	40°	.005
RAD-40M-010	40°	.010

#### **Diaform Dressers**

Both roughing and finishing tools specifically designed to fit Diaform attachments.

#### For Roughing

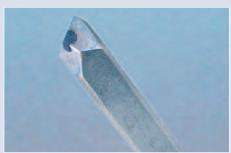

Product No.	Included Angle	Radius
RAD-550	60°	.020
RAD-511	60°	.020

#### **For Finishing**

Product No.	Included Angle	Radius
RAD-441	60°	.010
RAD-442	40°	.005
RAD-506	60°	.010
RAD-508	40°	.005

#### **Jones & Lamson**

Use this Radiac diamond tool on any Jones & Lamson truing device.

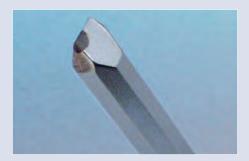

#### Overall Length 1-1/4"

Product No.	Included Angle	Standa	ard Radi	ii
RAD-967-1	50°	.004 .017	.007	.01
RAD-967-2	40°	.004	.007 .017	
RAD-967-3	30°	.004	.007 .017	
RAD-510-90	90°	.004	.007 .017	
RAD-510-50	60°	.004	.007 .017	
RAD-510-1	50°	.004	.007	

#### **Hoglund Engineering**

Designed to fit any Hoglund Engineering dressing device.

Product No.	Included Angle	Radius
RAD-106075	60°	.010
RAD-254875	48°	.025
RAD-154262	42°	.015
RAD-254075	40°	.025
RAD-153575	35°	.015
