

ABOUT US

Established in 2007, Attachment Supplies and Products, LLC.(ASAP) initially began manufacturing screw machine rotary style cutoff attachments and related products. In 2019, ASAP acquired our sister company, American Saw and Products. This merger allowed us to bring more of our product line in-house yielding quicker production and turnaround, a better customer experience, and competitive pricing. We continually work toward innovation, growth, and new products for our customers everyday.

Saw Blades & Mill Cutters

S-Curve

- *Used for deep cutting or slotting applications*
- *Increased feed capability due to free flowing tooth geometry*
- *General Purpose*
 - *Hard and Soft Materials*
- *No more stringy chips*
- *Increased parts per bar*

V-Series

- *Used heavily in the screw machine industry*
- *Well suited for general cutting applications*
- *Eliminates burrs, nibs, chip compaction at cutting edge*
- *No more stringy chips*
- *Increased parts per bar*

Mill Cutters

- *High material removal rates*
- *Multi-feature cut capability*
- *Reduces production cost associated with multiple tools*
- *Types:*
 - *Side Milling*
 - *Single/Double Angle Tooth*
 - *Full/Partial Radius*

Parts & Additional Services

Inventory

We have saw blades and parts in stock with a quick turnaround to keep your machines running and profits flowing.

Regrinding

A service offered to customers to help minimize downtime. Regrinds are cost effective and can have a turnaround time in as little as 24 hours.

Coatings

Increase the life of your saw blade with standard and custom coatings tailored to specific customer or application specific requirements.

Free Rebuild Program

We offer customers a way to maintain and rebuild attachments to keep machine/maintenance personnel focused on other priorities. Customers can send us their attachment and ASAP will rebuild it and only charge for the repair parts needed to get it back to OEM specs.

We Buy Used Saw Blades!

If your saw blade becomes too small for your application, we will buy them back. Contact us for more details.
