

**DOMINATOR** 

**Dominate Tight Tolerances and Maximize Chip  
Removal with Fullerton's Dominator Drill**

# DOMINATOR

**FULLERTON**  
Tool Company Inc.

## Great for Use In:

|           |                |                 |                  |            |
|-----------|----------------|-----------------|------------------|------------|
| Titanium  | Super Alloys   | Hardened Steels | Stainless Steels | Steels     |
| Cast Iron | Brass & Copper | Hi Si Aluminum  | Low Si Aluminum  | Composites |
| Plastics  | Wood           | General Purpose |                  |            |

## 1505 Series Dominator Drill:

- Dominates tight tolerances and maximizes chip removal.
- Designed for holding and maintaining tight tolerance holes, often eliminating the need for reaming.
- Unique geometrical features improve surface finishes, enhance chip removal and increase coolant flow.
- FC-7 Coating provides hot-hardness and high-oxidation resistance with outstanding frictional properties and is ideal for deep hole application.
- Available in solid carbide with and without coolant holes.
