Go FAR. Go FAST.

Fullerton Advanced Solutions Team

Fullerton Tool's Advanced Solutions Team (FAST) is the foundation of our commitment to continuously improve, innovate and provide vast product diversity. Our FAST culture is compiled of experts that specialize in the development of groundbreaking, superior carbide cutting tools while delivering unique high quality services for all of our customers. We continuously work to improve our internal operations with goals of reducing lead times, providing value-added services and improved quality and overall tool performance for our customers.

About Fullerton Tool

Fullerton Tool Company is a third-generation, family-owned business that specializes in the design and production of solid carbide cutting tools for a wide variety of industries. Founded in 1942, the company manufactures high quality end mills, drills, reamers, burrs, saws, keyseat cutters and PCD tooling.

Custom Tooling Solutions

We know tooling here at Fullerton Tool. Did you know that our FAST team is dedicated to help you select the right tool for your manufacturing process? By examining your manufacturing process, we can create the right tool for you. Sometimes that means making a slight alteration to one of our standard tools while at other times, we are creating completely custom tools designed specifically for your application. No matter your needs, our FAST team has the experience and knowledge to help you select the right tool for your process.

Download Our Fullerton Mobile App!

Our Fullerton Mobile App allows you to have instant access on your mobile device to check inventory, calculate speed and feed rates and check shipment tracking.
