

NEW Advanced Technology!

Complete portfolio of ISO PCD & CVD-D inserts

Laser-cut and vacuum-brazed

- Over 900 items
- PCD, CVD-D, full range of geometries
- Standard radii and wipers
- All inserts are laser-cut for better radius shape accuracy, yielding longer tool life
- 3-D chip breakers available
- CVD-D (Thickfilm Diamond) is ideal for aluminum with high silicone content, composite materials, plastics, non-ferrous alloys, etc.
- Manufactured using high-vacuum brazing

All inserts are competitively priced for the North American market.

Contact your KOMET Sales Engineer today to try these inserts!
