

WHY MAGAFOR?

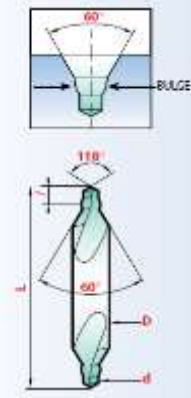

CNC QUALIFIED GRINDING!

The magafor center drills are particularly effective thanks to their unique ground spiral flutes.

WORLD'S BEST CONCENTRICITY!

Special attention to concentricity of the drill diameter to the body makes us superior to all others!

RADIAL & AXIAL RELIEF

WORLD'S GREATEST CENTER DRILLS!

THE FORM W "BULGE" MAGAFOR CENTER DRILLS

- the "BULGE" reinforces the point
- it increases chip removal
- improves lubrication of the drill
- runs at faster speeds & feeds

NC SPOTTING DRILLS WITH SPECIAL WEB THINNING!

Web Thinning
"Split-Point"
Pin-point accuracy!
Faster, easier cutting!

Spotting
Centering
Drilling
Chamfering
Direct Chamfering

V-grooving
Interpolation milling
Contour side milling
Engraving
Longitudinal chamfers

1 MULTI-V® = 10 OPERATIONS

Reduction in machine set up, tool change & set up time!
Improved performance-Fine cutting with micrograin carbide!
Easy storage, fewer tools, less tool space in magazine!

"0", SINGLE & TRIDENT 3 FLUTE COUNTERSINKS

"TRIDENT" 3 FLUTE=Self-centering, high positive rake, vibration free cutting!

"0" Flutes for smooth, burr-free finishes on light chamfering!
"Radial & Axial" relief ground edges for superior finish!
Ease of re-grind due to consistent ground profile.
Incredibly competitive cobalt pricing!

SOLID CARBIDE MICRO REAMERS & MINI END MILLS

TOLERANCE 0 + .00012"

All reamers have a 45° chamfer lead
Ø .0236" to .0929" = 4 flutes, Ø .0933" to .5138" = 6 flutes,
10 degree left spiral/right hand cut for through holes.

HIGH PRECISION MICRO REAMERS

Over 1,000 in stock starting at .0078 in .0002" increments to .0236

2-FLUTE CARBIDE MINI END MILLS

Smallest in the world .004" & up in both square & ball end!

OUR PRODUCTS PROVE THEMSELVES WITH EVERY TEST!
