

The WINCO Edge

Cutting edge technology combined with decades of experience have made Winco Industries a first choice for custom designed PCD tooling.

Winco Industries... A Cut Above

About us

- 1960** Business started as *Tipp Cutting Tool Service*
 - 1974** Formal incorporation as **WINCO** Industries Inc.
 - 1983** 1st American cutting tool company to produce rotary, fixed diamond (PCD) cutting tools for use in the machining of non-ferrous materials.
 - 1986** First Specialty cutting tool manufacture to achieve Ford Q101 Quality Status.
 - 1995** First U.S. cutting tool manufacture to achieve ISO 9001 Certification.
 - 1999** Opened **WINCOMEX** facility in Saltillo, Mexico to service the high production customers in that country.
 - 2001** Achieved QS9000 TE certification
 - 2005** Achieved ISO 9001:2000 (With Design Certification)
 - 2008** Achieved ISO 9001:2008 (With Design Certification)
- Today** **WINCO Industries** continues to grow and is a major producer of PCD and CBN Cutting Tools serving industries around the world with manufacturing operations in the United States & Mexico.

Time and again, Winco tools have proven their ability to cut production costs and increase productivity.

◀ PCD Tipped Rotary Cutting Tools

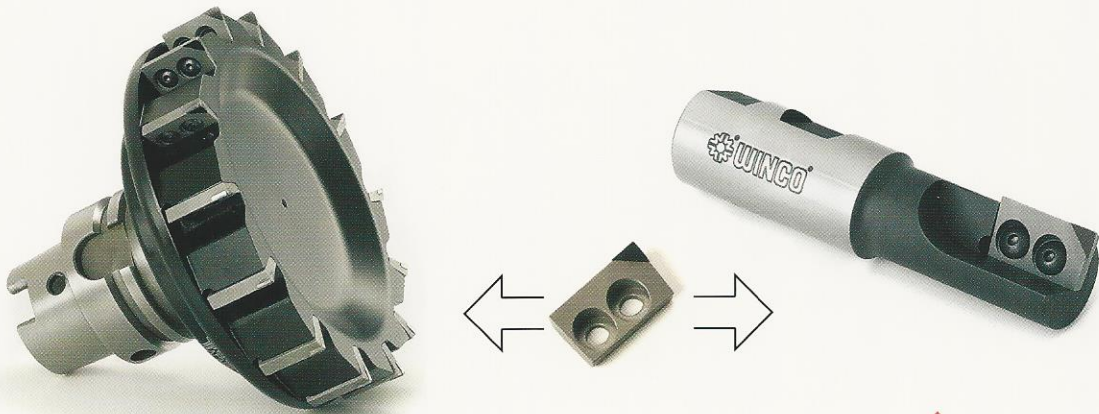

Winco is a world leader in applying industrial diamond technology to superior cutting tool products.

Standard PCD Tipped Milling Tools

Winco manufactures the Win-Mill™ standard cartridge-type PCD milling products (Integral shank available with Monoblock, HSK™, CAT Taper, ABS™ and BT™).

Supply problems?

Winco was the first in the US to produce rotary, fixed diamond (PCD) cutting tools in 1983 for metal cutting. Our experience and processes enable us to repair all brazed PCD tools regardless of original manufacturer in most cases with a lower lead time. We welcome your inquiry.

PCD & CBN Cartridges & Inserts

Winco provides a full line of tipped cartridges and inserts for milling and turning applications in nonferrous, ferrous and superalloy applications.
