machine cleaner.

**REFRACTOMETER**

AHB-RHB32ACTREFRACTOMETER

**THE NEW FEATURES INCLUDE:**

- A larger scale for easier interpretations of readings.
- The new larger barrel design supplies a more comfortable and secure grip.
- One-piece daylight plate offers greater durability and quick, easy snap-in replacement.

**C-THRU SEPARATOR  
NJ1500**

Scan To See The  
Installation Process!

**BLASER DRUM**

**JET MIX  
BLASER-9275PC**

The Jetmix is the ideal mixing device for preparing homogeneous and finely dispersed emulsions of cutting-fluid concentrate into water. The Jetmix correctly mixes proper emulsions at constant concentration. Proper preparation of emulsions is required for the longevity and stability of cutting fluids.
