

AHB Sump Cleaner

Machine Sump Cleaner/Sanitizer

PRODUCT DESCRIPTION

AHB SUMP CLEANER is a water dilutable low alkaline cleaner with heavy-duty detergency and a built in rust preventative. This cleaner was specifically formulated to clean the machine tools and their coolant sumps prior to recharging with fresh coolant. The use of **AHB SUMP CLEANER** in central systems and/or individual machine tool sumps will extend the life of the fresh coolant. This is accomplished by simultaneously emulsifying tramp oils, lifting coolant sludge and eliminating microbial growth.

BENEFITS

- Multifunctional – cleans and deodorizes
- Protects machine surfaces – built in rust preventative
- Heavy-duty detergency – removes oils, greases, shop soils
- Hard water stable
- Low pH formulation is operator friendly
- Safe on ferrous and non-ferrous metals
- Low foaming – any cleaner left in system will not cause foam in the fresh charge

APPLICATIONS

- Machine tool sump cleaning
- Central system cleaning
- In-process tank and/or spray cleaner

DIRECTIONS FOR USE

Completely empty system and remove any solids that remain. Charge system with fresh water and then add **AHB SUMP CLEANER** at 5-10% concentration. Allow **AHB SUMP CLEANER** to circulate for at least one hour or longer, if possible. The longer the dwell time the better the sanitizing and conditioning. Completely empty the **AHB SUMP CLEANER** solution from the system and charge with fresh coolant.

PROPERTIES

Appearance	Clear light amber liquid	Water Solubility	Soluble
Odor	Mild	pH (10%)	8.0 – 9.0
Specific Gravity	1.000 – 1.100		

PACKAGING

AHB SUMP CLEANER is available in 55 gallon drums and 275 gallon totes.
