# DIAMOND SERIES

## *Way Lubricants and Hydraulic Fluids*

*Patented Products. Superior Technology. Unmatched Performance*

Providing quality products to our many satisfied customers for over a decade.

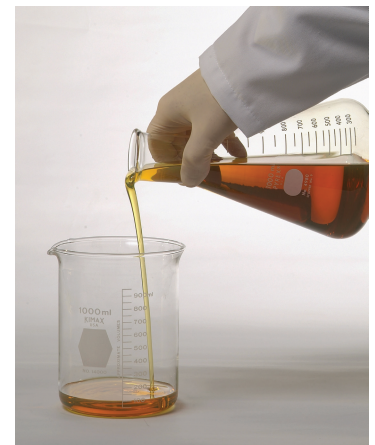

### Features That Make Our Products Special

- | A dramatic reduction in sludge formation due to zinc free and phosphorous free formulations.
- | Significantly reduced bacteria growth because of little or no sulfur present.
- | Clean separation from coolants helping to preserve coolant integrity.
- | Excellent lubricity and extreme pressure characteristics inherent in our patented technology.

### Benefits That Make Our Products Desirable

- | Reduced odors
- | Improved coolant performance
- | Increased coolant lubricity
- | Diamond Hydraulic Oils can be used in both anti wear and R&O applications.
- | Cleaner injectors
- | Cleaner environment
- | Reduced disposal costs

***Longer coolant life . . . . and longer tool life.***

## TESTIMONIALS

*from three of our long time distributors*

“Our customers are all very satisfied with the Diamond way lubricants and hydraulic oils.”

“One reason we like your Diamond products is because of their clean separation from coolants.”

“We have never had a customer complaint.”
