

# Maintenance Cleaners | Signature Collection

| General Purpose Cleaners | Floor Cleaners | Heavy Degreasers | Solvent Cleaners

A clean work environment is crucial to keeping your workspaces, staff, and equipment safe and demonstrates the same care and quality that you put into your products. DuBois has decades of experience developing products to meet the needs of a wide variety of general cleaning solutions. Our comprehensive offerings allow you to find a solution regardless of environmental or equipment restrictions. We integrate chemistry, dilution control equipment, and application techniques to deliver optimum results while controlling your total maintenance costs.

## General Purpose Cleaners

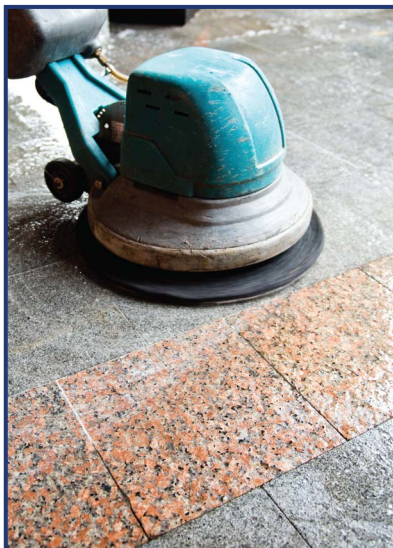

General Purpose Cleaners are the most ideal for multi-surface applications across a facility. The included products are all usable with steam equipment, pressure washers, floor scrubbers, spray equipment, or manual application. These products are versatile and able to handle most common soils.

Product Name	Use pH	Phosphates	Use Surfaces
Treo General Purpose Cleaner	10.5	✗	Safe on all surfaces.
Radi Aze	11.0	✓	Safe on all surfaces.
C-1102	11.2	✓	Safe on all surfaces.
Lift	11.2	✓	Safe on all surfaces.

## Floor Cleaners

Floor Cleaners are built to handle most industrial soils found on production floors. The included products exhibit low or controlled foaming, allowing them to be utilized in high pressure & steam equipment, floor scrubbers, manual applications, and more. These products are highly concentrated to minimize use and transportation costs.

Product Name	Use pH	Phosphates	Use Surfaces
Treo Neutral Floor Cleaner	8.0	✗	Safe on all surfaces.
Neutra-Lift	8.3	✓	Safe on all surfaces.
Power Lift	11.6	✓	Safe on steel, stainless steel, rubber, & plastics. Pretest on soft metals.
Lift F231	10.4	✗	Safe on steel, stainless steel, rubber, & plastics. Pretest on soft metals.

## Heavy Degreasers

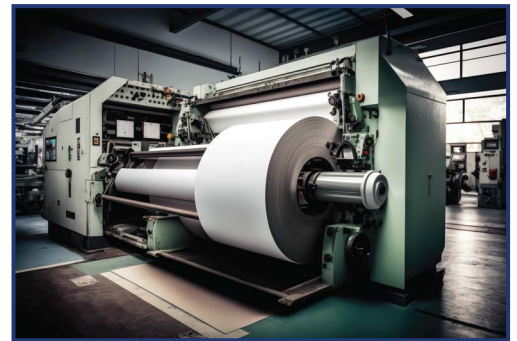

Heavy degreasers are designed to take on your toughest soils, such as fatty and protein soils, scales, petroleum oils, greases, and tars. The Signature line of heavy degreasers includes low, medium, copious, and gelled foaming profiles and are suitable for a wide range of application methods to suit the needs of any operation.

Product Name	Use pH	Flash Point (°F/°C)	Phosphates	Use Surfaces
DuJel 870	8.3	None to Boil	✓	Safe on all metals. Pretest on painted & plastic surfaces.
DuSqueeze	7.9	124 / 51	✗	Safe on all metals. Pretest on painted & plastic surfaces.
Jettacin	10.6	133 / 56	✗	Safe on most metals & painted surfaces. Pretest on plastic & rubber surfaces.
Expedite	9.7	210 / 98	✓	Safe on all metals. Pretest on painted & plastic surfaces.

## Solvent Cleaners

Solvent cleaners often address the most difficult cleaning problems in a facility, particularly on equipment that cannot tolerate water, where quick turnaround is required, or if the soils involved do not respond to water-based products. Resins, adhesives, and inks are usually handled best with solvent cleaners. The included products are safe on most surfaces & are compatible with a variety of application methods to ensure safety and efficiency.

Product Name	Flash Point (°F/°C)	Use Surfaces
Spirit 126	126 / 52	Safe on all metal & most painted surfaces. Pretest on plastic and rubber.
DuJel Citrus	118 / 47	Safe on all metals. Pretest on painted and plastic surfaces.
Perchem 1000	105 / 40	Safe on all metals, nitrile, Viton, polypropylene, & Tygon. Not recommended for use with EPDM, neoprene, ABS plastic, silicone rubber, or natural rubber.
Spirit 170	170 / 76	Safe on all metals. Pretest on plastic, paints, & rubber. Can degrade urethane & natural rubber with extended exposure.
