

ARMOR POLY® VCI FILM

Clean, safe, and easy to use, ARMOR POLY VCI Film protects metal from rust in two powerful ways:

- It's a physical barrier that protects metal parts from moisture, dust, and contaminants.
- It releases rust-preventing Vapor Corrosion Inhibitors (VCI). VCI molecules form an invisible shield on the surface of metal—displacing moisture and stopping rust. No oils or greases required!

ARMOR POLY VCI Film is available in rolls, sheets, bags, or tubing.

ARMOR WRAP® VCI PAPER

ARMOR WRAP VCI Paper combines the strength of Kraft paper with vapor corrosion inhibitors (VCI) to protect both ferrous and non-ferrous metals from corrosion. Simply wrap or enclose metal parts in ARMOR WRAP®, and VCI vapors are released to form an invisible molecular shield on metal surfaces—displacing moisture and preventing rust without the need for oils or greases.

It's a clean, safe, and easy-to-use alternative to traditional rust preventatives. WRAP is available in sheets or rolls to suit your packaging needs.

ARMOR VCI EMITTERS & MOISTURE CONTROL

ARMOR VCI Emitters release rust-stopping vapor corrosion inhibitors (VCI) that form an invisible molecular shield on metal surfaces—displacing moisture and preventing rust without the need for oils or greases. Combined with packaging materials like foam or chipboard, they're ideal for keeping metal parts clean and corrosion-free.

The ARMOR SMARTY PAK™ takes it a step further by combining ARMOR's VCI Nanotechnology™ with a specialty desiccant to prevent rust and adsorb moisture in one smart, easy-to-use solution.

WHERE ARMOR WINS

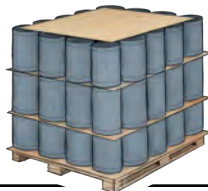

RUST

What are you doing to **PREVENT** rust?

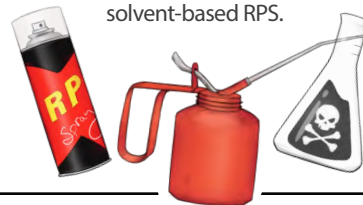

NO PACKAGING

If you produce or package **METAL PARTS** an opportunity exists.

DIRTY & HARSH RUST PREVENTION

Health, safety and environmental risks are the reality of using messy oil, grease and hazardous solvent-based RPS.

EXCESSIVE INVENTORY

No need to order/store large inventory and free up money previously spent on required orders of large inventory.

PRODUCT SHORTAGE

Product inventory that is immediately available, in stock and ready-to-ship.
