

# High Output LED Machine

IP67 RATED SPOT-LITE MACHINE LED LIGHTING

*Compact & Powerful LED Lighting for Swiss-style Machining*

## Next Generation LED Spot Lighting

The new Spot-Lite is the perfect addition to any CNC machine - enclosed or not! Our LED Spot-Lite builds on our sophisticated LED technology to provide users with unrivaled lighting.

## Say Goodbye to Your Old Halogen!

Hot and dangerous bulbs are a thing of the past! Upgrade your machine to cool LED lighting - you'll see immediate improvements in set-up times and no loss of production time replacing bulbs!

LED-WSL-SS-10-24v

270° SWIVEL

### IP67 Gasketing

Specialized design ensures leak-proof performance over the entire life of the light.

LED-WSL-MG18-10-24v

### Tempered Safety Glass

Anything can happen in a CNC enclosure - you'll appreciate this added safety and piece of mind.

### 10° Precision Focused LEDs

Great care and thought went into designing this spotlight. Maximum light with even spread ensures ideal lighting for any machine.

### Locking Die-cast Swivel Base

- Locks up solid at any angle
- 180° Adjustment Range

Ordering Specifications & Options on the Next Page

### Integrated Dimming

Each IP67 light features a built-in dimming switch with a 100-5% dimming range.

### Mounting Choices

- "Head Only" Magnet & Swivel
- 12 or 18" Gooseneck
- 30 or 43" Spring Arm

### Compatible with LED-1936 Linear

The light can be daisy chained into series with our high output linear LED (end position). This allows you to light the largest cabinets, but also provide light exactly where required.

### Minimal Maintenance

It is up to the operator to regularly clean rear heat fins to ensure long service life. Cool LEDs are happy LEDs.

### 3" Neodymium Magnet

Your choice between permanent screw mount or magnet. Competitive units can't match the holding power.

Part Number	Mounting Choice			Voltage	
	Head Only	12" Gooseneck	18" Gooseneck	24V DC	100-240V (50/60hz)
