# Introducing the *Slat SHARK™* the slat cleaner you've been waiting for...

Your laser is the heart of your business and maintaining it is a key part of your success and your companies mission. Let the *Slat Shark* put an end to the labor intensive task of cleaning slats and keep your productivity at peak capacity!

The SHARK™ is designed to remove the toughest slag and dross buildup from your fiber-optic (or CO2) laser with minimum effort.

It's Patented, motorized system includes a controlled traction device that allows a single operator to handle the job with minimal effort. The SHARK™ works on any support slats and even on some Plasma tables.

Its ergonomic design minimizes strain on his hands and upper body, making it safe and OSHA approved. The SHARK™ also brings a new level of efficiency to the cleaning operation, thanks to the winch system which can span a full 13' x 6' table and can be cleaned in less than 10min without breaking a sweat.

# SPECIFICATIONS
