INSERTS

ACP200/ACP300	ACM250F	DS20	NF15KA
For all steel & stainless steel materials.	For stainless steel	For aluminum & /non-ferrous materials.	For cast iron
Multi-layer PVD coating on carbide base with nanoscale TiAlN & AlCrN. Excellent performance and wear resistance.	PVD-coated carbide with excellent smoothness and resistance to welding and chipping, due to the ultra-multilayered thin film structure made of AlTiN and TiAlCrN	DLC coating on carbide base with very smooth surface for a low coefficient of friction. Excellent performance against built-up edge.	Adopts K15-equivalent carbide material with hardness & toughness for cast iron.

- Must purchase 30 of the same insert to receive the free cutter body
- Inserts are available in packages of 10 pcs.
- SE (sharp edge) type prevents burrs; recommended for stainless steel & mild steel

FREE CUTTER BODY TYPES

C-CUTTER MINI—MULTI-INSERT TYPE

4 inserts & small cutting diameter. High-performance chamfer cutter achieves ultra-high feed rate by reducing the cutting diameter to the lowest limit.

C-CUTTER MINI—SINGLE INSERT TYPE

Reduces the cutting diameter to the lowest limit, helping to achieve ultra-high spindle speeds and feeds. Delivers multi-functional cutting, including chamfering, back chamfering, and even light face milling.

C-CUTTER MINI—FRONT CHAMFER TYPE

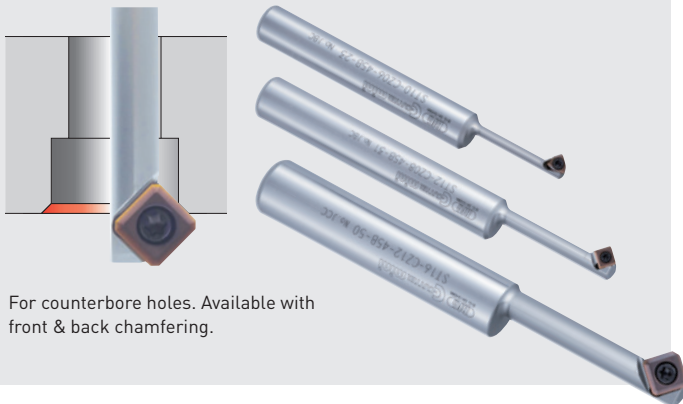

Ultra-high feed chamfering mill with a compact design.

C-CUTTER MINI—BOLT AND TAPPED HOLE TYPE

C-CUTTER MINI—SINGLE INSERT (Ø10-20mm)

For counterbore holes. Available with front & back chamfering.

C-CUTTER MINI—CKB TYPE

Front and back chamfering of shoulders

Front and back chamfering of deep holes

BF-CUTTER

Exclusively designed for back spot facing of cap bolt holes.
