## Torque adapter is patented

Torque adapter design:  
 Multi-Country  
 Ergonomic handle  
 Compact  
 Various preset values available

## Accuracy

### No over-tighten !

Continued tightening will not increase the torque on the screw.  
 The loosening torque is larger than the tightening torque thus protecting both the tool and screw.  
 Torque value is within +/- 10% of the preset value.

## Replaceable

### Economic !

Common handle for all adapters.  
 Replaceable industry standard Torx bits - 25mm & 50mm OAL.  
 The result equals cost savings compared with other brands in the market.

## Color Identity

### No mistake !

Identification color band on the bits match the color band on the adapter .  
 Helping provide convenience of use while delivering proper tightening torque.
