

Vargus Ltd. is pleased to introduce

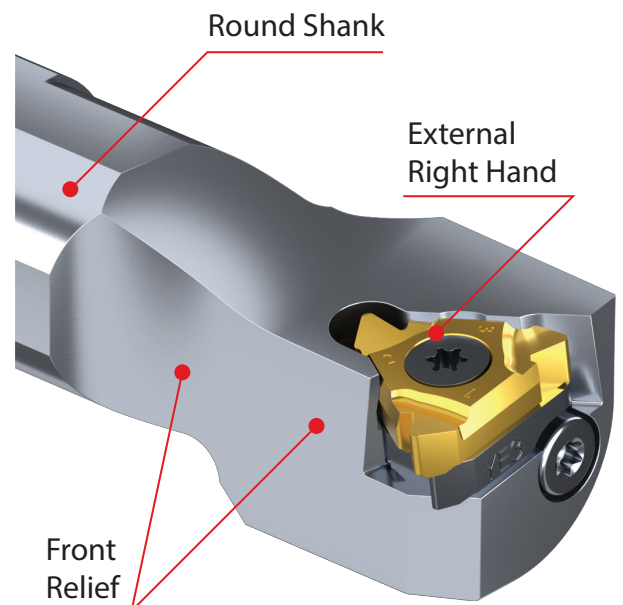

EXPANSION

MACH TT Toolholders Round Shanks for External Applications in Swiss-Type Machines

Features and Benefits:

- Increase toolholder position - when there isn't space for clamping on the square shank magazine, the new round shank toolholder design enables clamping the tool in the drill sleeve position
- Left Hand toolholder with round shank - for use with external Right Hand inserts
- Available for MACH TT IC3/8" external inserts
- Front relief toolholder for extra-close clamping and support

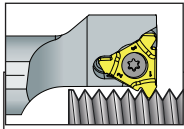

Refer to the VARGUS GENius™ for tool selection and cutting conditions.

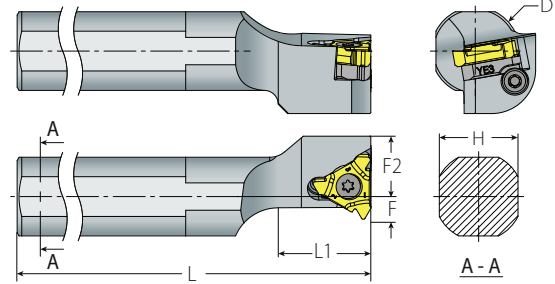

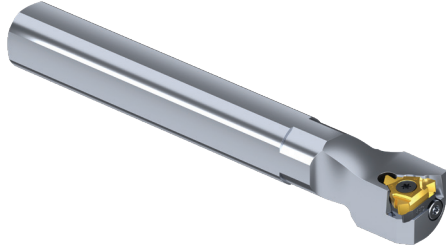

Please contact me directly with specific questions and requests.
For additional updates and news visit the VARGUS website: www.vargus.com
