The CribMaster *ToolBox*

- Secure Dispensing
- Ideal for Cutting Tools
- Still very practical & Popular

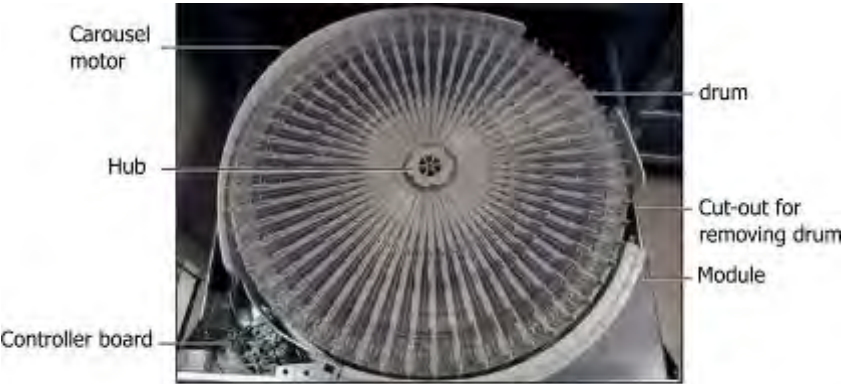

The CribMaster ProStock

- Secure Dispensing in a small footprint with no item dropping
- Easily configurable storage spaces to accommodate many different sized items
- Most Popular

- Highly Configurable Carousel Trays

The CribMaster CabLock

- Semi-Secure Dispensing to the Drawer Level
- Handle Heavy Items
- Vend Items without Repackaging
- Dispense Items without Dropping

CribMaster Inventory Management System **CabLock**

SCREWS, WASHERS, NUTS, BOLTS, GROMMETS, HOLE COVERS

CM Gate & CM Scanners

- Improve Free Issue Accuracy
- Require Log-in and secure gated entry
- Track by default cost centers or require selection prior to entry
- Eliminate Paperwork and Double Entry
- Improve purchasing and replenishment based on actual usage
- Great solution for 3rd Shift

The CribMaster ModuLock

- Secure or Semi-Secure Dispensing
- Open Doors to Specific Locker Sections
- Handles Heavy Items
- Useful for Durable Items
- Configure Doors and Add Door Sections as Needed

*The CribMaster **Weigh Station** will allow you to:*

- Store and distribute items
- Issue items using sensitive scales
- Allow completely passive issue technology
- Custom configure bins as needed
- Dispense bench stock with no repackaging
- Dispense gloves with no repackaging
- Monitor activity with over 190 reports

The CribMaster Weigh Station brings many functions and features to your shop floor, including:

- Barcode scanner or prox reader
- Touch screen interface
- Handling consignment/non-consignment
- Tracking usage history
- Flexible security/product access control
- Multiple individual bin sizes & configurations
- Multiple scale weight capacities

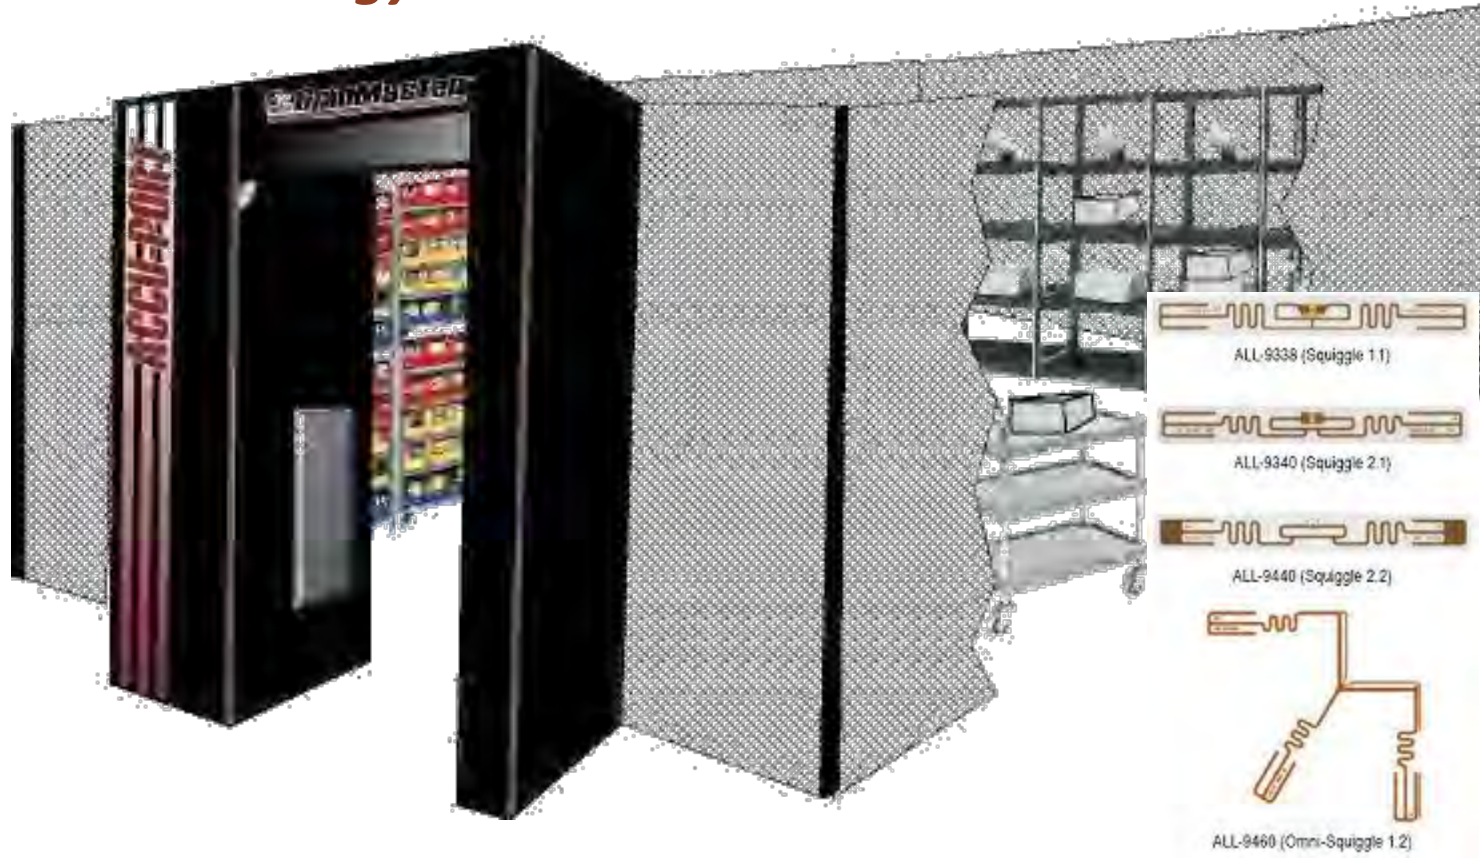

Up to 80 Bins

Up to 50 pounds
