- Multiple sized bins
- Transactions automatically recorded

MTF™
(Mobile Tool Facility)

- Ensures product availability on job sites
- Utilizes RFID or weight-sensing technology with 53' trailer for secure storage
- 24/7 controlled access for authorized users
- Automates the tool tracking process
- Reduces tool loss

CUTTING TOOL POINT-OF-USE
VENDING SOLUTIONS

ToolBox™

- Flexible coil dispensing
- High-security storage
- 60 - 70 unique SKUs
- Dispenses single items or kits
- Cost-effective control
- Easily expandable with auxiliary units

ProStock™

- Versatile carousel device
- Up to 560 storage spaces in 10 individual carousel sections
- High security for controlled consumption
- Carousel spins to exact location of item
- High-density storage in small footprint
- Easily expandable with auxiliary units

X3 System™

- Flexible benchtop vending ideal for work cell environments
- Expandable modular design
- Combines coil and carousel dispensing
- Low-cost vending solution
- Ideal for single inserts with no repackaging required

ToolCube™

- Single-item dispensing
- Multiple drawer sizes to house inventory
- Heavy-duty all-steel construction
- Controlled access
- Easily expandable with auxiliary units

MRO CONSUMABLES
TRADITIONAL VENDING SOLUTIONS

ToolBox™

- Flexible coil dispensing
- High security storage
- 60 - 70 unique SKUs
- Dispenses single items or kits
- Cost-effective control
- Easily expandable with auxiliary units
- Ideal for gloves, glasses, and batteries

X3 System™

- Flexible benchtop vending ideal for work cell environments
- Expandable modular design
- Combines coil and carousel dispensing
- Low-cost vending solution
- Ideal for welding tips, nozzles, and earplugs with no repackaging required

ProStock™

- Versatile carousel device
- Up to 560 storage spaces in 10 individual carousel sections
- High security for controlled consumption
- Carousel spins to exact location of item
- High-density storage in small footprint
- Easily expandable with auxiliary units

ProLock™

- Field-configurable for customizable storage
- Controlled access
- Adjustable locker size for larger MRO items
- See-through locker doors for increased visibility
- Easily expandable with auxiliary units

CabLock™

- Low-cost solution
- Multiple drawer sizes to house inventory
- Medium security
- Keyless entry for ease of access
- Ideal for fasteners and bench stock

MultiStore™

- Houses multiple SKUs within each locker
- Easily expandable with auxiliary units
- High visibility of stored items
- Medium security
- Ideal for tape, filters, batteries, and high-use consumables

MRO CONSUMABLES
PASSIVE ISSUE SOLUTIONS

WeighStation™

- Highly accurate scale technology
- Non-obtrusive access
- Ideal for bench stock and high-use MRO such as gloves, and welding rods
- Mulitiple bin size and scale options
