Turn any room into a secure, automated storeroom

IMPLEMENT IN LESS THAN A DAY

Quickly turn chaos into order. Everything you need for set-up is provided; including mounting hardware, cabling and installation guide.

FULLY AUTOMATED SELF-SERVE CRIB

Save 20%-40% on your indirect materials; min/max levels and auto re-orders ensure you never run out stock.

24/7 CONTROLLED ACCESS

User authentication and electronic door lock ensure accountability but also allow full access to parts around the clock. Dual entry authentication available.

Automated Inventory Management Made Easy

Designed with users in mind, SecuraStock software is very intuitive; offering powerful tools to better manage indirect inventory

MANAGE YOUR STOREROOM FROM ANYWHERE

Our propriety software integrates with your ERP system, has EDI and API interface capability.

Key features include:

- Inventory transactions
- Automatic reorders
- Notifications and reports
- Request non-stock items
- Item check-in / out
- Expiry date calibration tracking and much more
- Multiple entry authentication available.

HIGH SECURITY CAMERA SYSTEM

- Four motion tracking cameras record all user actions
- Software allows managers to quickly find and view individual transactions
- Video monitoring prevents theft; we guarantee it!
- More cameras available for purchase to fit every storeroom

RFID OPTION:

RFID readers can be added to the system for added convenience and security.

SHIPPING CONTAINER OPTION:

Add our heavy duty entrance gate to SecuraCrib to transform your shipping container into a secure storeroom.

BASE PACKAGE INCLUDES:

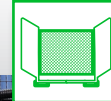

- Wall mounted access control box with universal badge reader and keypad
- Electronic door locking system
- Cabinet with scanner
- Computer, monitor and battery back-up power source
- WiFi and Ethernet connections
- 4 Cameras with cables and mounting hardware

Manage your inventory from our mobile App!
