

SECURA

SCALES

TRANSFORMING THE WAY INVENTORY IS DONE

SecuraStock has designed a revolutionary Scale.
It works without constant monitoring and corrections.

3

YEAR
WARRANTY

WHAT MAKES OURS "RIGHT"?

- | | |
|-------------------|---|
| Accurate | Scales come already calibrated, no need to recalibrate, ever. |
| Durable | 3-year warranty on all parts, tested in tough environments across the globe. |
| Affordable | Lowest cost per Scale and SKU in the world, at least 50% lower than next lowest. Easy set up, simple plug and play. No external power required. |

SECURASTOCK.COM

Accurately count the parts taken and put back. Even keep 2 items on same scale and have our system correctly identify what was taken or returned.

SECURASCALE FEATURES:

Both vending machine and open shelf placement

Superior precision with four load cells per scale

Proprietary system accurately counts parts, regardless of outside factors such as human error, heat, humidity or time.

Most rapid replenishment of any automated solution, repacking not needed.

Each scale is equipped with LED light confirming operation.

Mechanical and software protection for the load cells

Our smart scales, equipped with an integrated processor, outperform traditional models.

Quickest and easiest way to issue products

Integrate SecuraBins are ergonomically designed to make items easily accessible

No need to tare the scale after refilling

Voice activated monitor confirms both visually and audibly items taken or returned

Tested to NTRP standards, legal for trade

POWERFUL INVENTORY MANAGEMENT SOFTWARE:

Manage inventory from the vending unit, your smartphone or PC

Connects directly to your ERP system

Generate reorders, notifications and reports

Optimized inventory levels using machine learning

Encrypted with Third Party Testing

OTHERS HAVE TRIED, WE SUCCEEDED

Accurately manage up to two SKU's per scale

Set-up and forget operation, self calibrates and never falls off count

Configure via our proprietary SecuraSmart mobile app

Reliable detection of erroneous objects added to a bin of inventoried items
