

This may look like a lot of Power Chucks...

But it's just one Pratt Burnerd Chuck that can do all this and more...FASTER

- ⊕ Quick Change Master Jaws... Allows Top Jaws to be changed in less than 1 minute
- ⊕ Use Existing Top Jaws... No special top jaws or inserts required, available with 1.5mm x 60°, 1/6" x 90°, Acme, Square Serrations and Tongue & Groove
- ⊕ Double as a Collet Chuck... Master jaw accepts American-style (warner swassey Type) collet pads
- ⊕ Constant Grip Design... Maintains over 90% jaw force at maximum speed compared to most other power chucks that maintain only 33% using standard top jaws
- ⊕ Counter-Centrifugal... Ideal for thin wall components, allows higher speed and feed without part distortion
- ⊕ Adjustment Feature... For special jobs, .005" adjustment in the chuck body allows you to true up jaws or collets pads to less than .0005"
- ⊕ Extra large thru-hole models available... 8" chucks with 2.5" and 10" chuck with 3" thru hole
- ⊕ Standard sizes available... 6", 8", 10", 12", 15", 18" 20", and 24" diameters
- ⊕ High Speed... Up to 6000 rpm's
- ⊕ Open Center or Closed Center...
