**The new Speedgrip Chuck Company self-balancing adapter** eliminates the need for attaching bulky counter-balance weights to your set up.

This unique design utilizes precision machined races and spherical balls, along with centrifugal force to eliminate the out-of-balance condition in the part.

This simple, but effective method eliminates the out-of-balance condition for most parts. However, there are limitations. Please contact the Speedgrip engineering department with your application data.

FOR OVER SEVENTY YEARS,  
**WORKHOLDING YOU CAN TRUST.**
