

TOOLS FOR SCHOOLS

Nov. 3 - Jan. 30, 2026
BIG DAISHOWA will donate
a tooling certificate valued
at 20% of every order to the
customer's school of choice.

To take advantage of this promotion, the following must be met:

- A minimum order of \$5,000 (earning a \$1,000 tooling certificate).
- Place the order through your local distributor and request "Drop-ship from BIG DAISHOWA."
- Reference "PROMO-BD-SCHOOLS" as a line item on your order.

BIG DAISHOWA'S tool holders, boring tools, workholding, and tool management systems aim to reduce the overall process time and the cost per part.

Popular products include face mill holders, end mill holders, collet chucks, angle heads and tapping adaptors. The world-leading KAISER boring system, high-performance SPHINX drills and UNILOCK workholding systems are also available, as are CAT, BT, HSK and BIG CAPTO systems.

"Our commitment to workforce development runs deep, and this program gives our customers the chance to invest directly in their communities by providing future machinists and engineers the same BIG DAISHOWA tooling they'll use in their careers."

Jack Burley, President & COO of BIG DAISHOWA Inc.
