AHB TOOLING & MACHINERY

AHB's field and internal sales staff are continuously trained to provide technical assistance in metal removal to offer our customers with the latest in cost-saving applications. We offer inventory management solutions, including tool dispensing vending machines.

Our company size and the technical capabilities of our outside and inside account representatives allow us to provide individualized, value-added solutions to our customers' challenges. AHB guarantees to reduce your machining costs by offering you top-quality products at competitive pricing. Use our online ordering feature or call us today for a no-risk trial order.

In order to serve you better, AHB has become ISO registered. We believe that by obtaining ISO certification, AHB will be a more effective company, allowing us to provide your company with metalworking solutions that will impact your bottom line.

We look forward to serving you!
